PROFILE

Passionate data professional with experience in applying data-driven approaches in the social development sector across India. With a background in engineering and hands-on expertise in research, data management, and visualization, I have worked on projects spanning disability rights, gender equity, public health, renewable energy, and rural development. My work bridges technical skills with social research, focusing on making data inclusive, accessible, and impactful for communities and policy.

PROFESSIONAL EXPERIENCE

Data Analyst | Pacta

Sep 2024 to Jul 2025

Pacta is a Bengaluru-based, India law firm and think tank dedicated to reducing inequities by bridging the gaps between the intent and implementation of laws and policies.

- Conducting quantitative research in Disability, Law, and CSR domains, utilizing web scraping, data cleaning, EDA, and NLP to analyze policy implementation gaps and drive actionable insights.
- Collaborated with Giving Tuesday on the 2024 study on AI readiness and adoption in the nonprofit sector; analyzed survey data, identified emerging patterns, and developed comparative insights supported by in-depth interviews.
- Contributed to the UDID (Unique Disability Identity) Implementation Study across five Indian states; analyzed survey data to identify challenges in awareness, documentation, and service delivery for persons with disabilities.

Data Specialist | Gram Vikas

Dec 2020 to Jan 2024

Gram Vikas is an NGO based in Odisha which works building capabilities of village communities, strengthening community institutions and mobilizing resources.

- Worked as a Data Specialist in the Water Resource Technology Group, where I developed automated reporting systems, dashboards, and survey frameworks to support water conservation initiatives and impact assessments. Led projects on installing automated weather stations across multiple districts, collaborated with government and research bodies on LORAWAN-based systems, and facilitated dissemination of weather and agricultural advisories to rural communities.

Rural Development Fellow | SBI Youth For India

Oct 2019 to Oct 2020

SBI Youth for India (SBI YFI) is an Indian rural fellowship programme initiated, funded and managed by the State Bank of India (SBI) in partnership with non-governmental organizations (NGOs). Fellows work with the NGOs on grassroots development projects.

- Worked on rural development projects in Odisha-India, leading Installation and monitoring for weather station initiatives and engaging 600+ farmers through community-based capacity building. Contributed to a COVID-19 assessment study across 14 states, collecting and analyzing data from 550+ respondents and publishing visual reports to inform response strategies.

CONSULTING AND SHORT-TERM ENGAGEMENTS

Data Consultant | South Asia Women's Fund India

Oct 2024 to Dec 2024

South Asia Women Foundation India (SAWF IN) is a women's fund dedicated to resourcing women and trans* persons-led initiatives advancing rights, gender justice, and social equity. It strengthens grassroots movements through grants, fellowships, and advisory support for inclusive, gender-transformative agendas.

- Designed and implemented data collection methodology combining surveys and in-depth interviews.
- Conducted outreach and engagement with women-led and trans* persons-led grassroots organizations.
- Analyzed qualitative and quantitative data to generate insights and compile a comprehensive report.
- Developed a comprehensive and robust study of women and trans people led non-profit organization in state of Odisha.

Data Consultant | National Institute for Research in Tuberculosis**May 2024 to Jul 2024**

National Institute for Research in Tuberculosis carries out research on clinical, bacteriological as well as behavioural and epidemiological aspects of tuberculosis and HIV-TB

- As part of Piramal Swasthya agreement, designed district level annual survey tuberculosis database, creating data models to support its monitoring, Data handling and coordinating with respective team and addressing inconsistencies.

Data Consultant | Mindsprint**Feb 2024 to May 2024**

Mindsprint is a technology and business services company offering digital IT solutions and enterprise transformation driven by AI, cloud, data, and cybersecurity,

- Data extraction with API from diverse weather data vendors, detail analysis of weather data for diverse parameter influencing energy generation, downscaling of weather forest data, Quality control data sets.

EDUCATION & QUALIFICATIONS**University College Dublin - Master's Degree Level 9 NFQ Social Data Science****2026**

I am pursuing an MSc in Social Data Science to strengthen my ability to combine data analytics with social research methods. This course is helping me deepen my understanding of how data can be used fairly and effectively, which will guide me in my future career of creating practical, inclusive solutions for social challenges.

Scaler Academy - Certificate of Higher Education Data Analysis**2023****Amrita University - Bachelor's degree Electrical and Electronics Engineering****2018****SKILLS**

- **Project Management:** Monitoring & evaluation, stakeholder coordination, training & capacity building, knowledge management, report writing
- **Core Strengths:** Adaptability, teamwork, problem-solving, strong communication, empathy, and reliability
